FINE MOTOR GROUP

Is your child struggling with fine motor skills like dressing, colouring/drawing, using scissors, early printing?

The Occupational Therapy Department will be running some small groups for clients born in 2019 or 2020 over the next several months, run by an Occupational Therapist and/or Therapy Assistant.

There will be 4 sessions of each group, with 4-5 children with a parent. A parent or other guardian must attend the group and take part in the activities, with the hope that the activities can be practiced at home. If you sign up for the group we ask that you make every effort to attend all 4 sessions, because other families are waiting for this group as well.

The theme of this group is "Fine Motor Fun", and the goal is to increase comfort and confidence with using the hands for fine motor and visual motor activities.

If you would like to register for one of the groups, please click the link below.
